## WHO WE ARE

Formed in 2016, by life-long Bay Area local musicians, our cryptic and driving sound is based on revealing the human psyche on all levels; soul, mind & spirit. Our songs are inspired by the darker new wave and gothic rock bands of the 80s mixed with the under-tones of current alternative music. Our stylistic approach is created by musicians with a united goal; to create a beautiful sonic landscape layered with cinematic visuals from your best shimmering dreams.

## VENUES PLAYED
